## ENERGY STAR® Certified & Cool Roof Texas Commercial Incentives

## EL PASO ELECTRIC

## SEE THE IMPACT OF A COOL ROOF UPGRADE

A Cool Roof by the Cool Roof Rating Council (CRRC) can be a powerful asset in reducing energy consumption. Reflective materials and appropriate insulation on low-sloped or flat roofs, Cool Roofs can:

- Reduce building energy consumption by up to 15%
- Improve insulation performance to reduce winter heat loss and summer heat gain
- Reduce operational costs of air conditioning systems
- Potentially reduce HVAC capacity requirements

### REDUCE ENERGY USE, IMPROVE PERFORMANCE

An El Paso Electric commercial customer upgraded the roof on its 83,241 sq. ft. building with Qualified Cool Roof.

#### Project by the numbers\*

**\$5,118**

est. annual savings

**\$5,813**

est. incentives

**24.22 kW**

est. savings

**51,188 kWh**

est. savings

\*Actual incentives and energy savings may vary by customer and project type.

## SAVINGS THAT MAKE A SPLASH

Want to see your energy costs take a dip? If you have a pool, upgrading to an ENERGY STAR® certified pool pump can save your business hundreds of dollars a year on energy costs alone.

Plus, its variable-speed motor means it will run quieter, last longer and reduce the strain on your pool's filtration system.

#### ENERGY STAR® certified pool pumps:

- Use up to 70% less energy than standard pool pumps
- Can save you up to \$1,000 a year on energy costs
- Run quieter and last longer

## EFFICIENCY PAIRS WELL WITH PERFORMANCE

Replacing your power-hungry kitchen tools with ENERGY STAR® certified commercial food equipment is a smart way to lower your energy use and maintenance costs without sacrificing style or performance.

El Paso Electric Texas rebates are available for commercial:

- Electric Convection Ovens
- Combination Ovens
- Dishwashers
- Electric Steam Cookers
- Electric Fryers
- Electric Hot Food Holding Cabinets
- Refrigerator/Freezer Reach-ins and Ice Machines
