1 <u>HELPFUL OVERVIEW</u>

1.1 Overview

This User Guide is designed to help users navigate through the EPE Energy's Contractor Rebate Portal. The User Guide is intended to serve as basic introduction to the system and will learn to:

- Access EPE Energy Contractor Portal
- Shop Product Rebates
- Create an Order
- Navigate and Populate Enrollment workflow step

1.2 Tips & Tricks

- 1. EPE Contractor Portal works best using the Google Chrome browser.
- 2. For login and contractor profile assistance, please email: Epe.residential@clearesult.com
- 3. "Add to Cart" must be done to ensure an order is made.
- 4. EPE will not let you add orders until you have completed the eligibility wizard.

5. There is a delay when documents are uploaded. The bigger the file the longer the delay. For Required documents, the upload document box does not close automatically. Click 'Save' after each document upload, then 'Close.'

6. By clicking 'Place Order', you are sending an enrollment to the next step for which you do not have access and you are unable to return to edit.

7. Use Zillow or El Paso Central Appraisal District (El Paso CAD) property search to get the square footage.

8. If a contractor has an established EPE Customer Portal Account, a different email address must be used to create a new Contractor Portal Account.

9. Please check your inbox and junk folder of your email to locate confirmation emails pertaining to orders submitted through the customer portal.

10. Rebates submitted through the Contractor Portal can only be paid out to the primary EPE Energy account holder or installing contractor. If the payee is to be another, a physical EPE Energy application must be submitted. Please email application: <u>Epe.residential@clearesult.com</u>.

11. For Early Replacement Rebates, if model or serial number of existing HVAC (Heating Ventilation and Air Conditioning) unit is not legible, add ILLEGIBLE to the respective field.

12. If unable to upload all necessary documentation in portal, please email pending documents to EPE <u>EnergyResidential@clearesult.com</u> and include order number.

2 ACCESSING EPE ENERGY CONTRACTOR PORTAL

Go to the following website

https://www.clearesult.com/trade-ally/EPEenergy

2.1 CONTRACTOR PORTAL ACCOUNT SET-UP

On the home page you will be directed to "JOIN THE PROGRAM" to establish an account.

About Our Trade Ally Program

We partner with contractors to help our residential customers reduce energy use, save on energy costs and improve the overall performance of their homes. As a registered Trade Ally, you will help customers implement qualifying energy-saving improvements. Customers can then earn rebates for installing high-efficiency equipment in their homes. We'll provide you with training, tools and other resources to support your success.

About Our Contractor Program

El Paso Electric's Texas Residential & Income Qualified Solutions Programs are designed to help our residential customers reduce peak electric demand and energy use by providing access to technical knowledge, energy assessments and financial incentives to improve the efficiency of their homes. El Paso Electric provides the support and incentives for the programs. El Paso Electric residential customers located in Texas are eligible to participate in the program. Participating contractors discount the services on the customer's invoice. Incentives are paid directly to the participating contractor after the project has been completed, verified and inspected (if necessary) no later than November 30.

Get Started

My Dashboard is the central hub for information pertaining to incentives submitted and address information.

4.1 MY DASHBOARD

Incentive eligible measures will be found in "My Dashboard," and direct you to the Browse Products Page. Application status and updates will be displayed in "My Orders' Using Order numbers provided, questions or further information on application status can be checked by emailing <u>Epe.residential@clearesult.com</u> or calling 915-255-4290.

Once the Dashboard has been established, contractors will be able to "Browse Products" to submit incentives. The products are divided between Residential and Low Income; the program can be selected by hovering your cursor over the highlighted area below.

5.1 PRODUCT REBATES AVAILABLE

Products available for rebates under "Residential" and "Low Income" are as follows:

- Windows
- Evaporative Cooling
- Ceiling Insulation
- Pool Pumps
- Low Flow Showerheads
- Solar Screens
- Heat Pump Water Heater
- Air Infiltration (Refrigerated Air Only, Income Qualified Only)
- Wall Insulation
- Thermostats
- Aerators
- Ceiling Fans
- Pipe Insulation
- Duct Sealing
- Cool Roof
- LEDs
- HVAC (Replace on Burnout, Early Retirement, New Construction/Conversions)
- Storm Windows
- Heat Pumps (Replace on Burnout, Early Retirement, New Construction/Conversions)
- Attic Encapsulation

5.2 SELECTING PRODUCT REBATE

To create a new incentive or "Order^{*}," select from the products listed under "Browse Products" or select the picture of the specific rebate. Based on the type of product, this may be located under "Residential" or "Low Income." Select your measure by clicking "View Product" under the applicable product.

B Pae Even Home Browse Products My Dashboard	Q Type to search	Ingin Out	
Home > Browse Products > Residential Solutions	Showing 7 of 7	Sort By Position 🗸 🕈	
Category A Browse Products (14) Residential Solutions (7) Appliances (1) Heating & Cooling (1) Water Heating (2) Weatherization (1) Windows & Doors (2) Low Income (7) Appliances (1) Heating & Cooling (1) Water Heating (2) Weatherization (1) Windows & Doors (2)	Windows (Residential)	Wire Wire Up to \$600.00 rebate per unit	

Select "Verify Eligibility" to start entering rebate information. An Eligibility Wizard prompt will pop-up. All steps must be completed. Pop-ups must be enabled to continue. The customer's name must match the name of the electric account holder.

5.4 ACCOUNT DETAILS

Step one: Enter the EPE Account Details for the customer. You must read and accept the Terms and Conditions to continue. Click "Next" to proceed.
